Dear Public Commission of SC:

People on a set income cannot afford another Electric increase at this time. I live in Greenwood County; the electric rates here are not fair. Houses built before Duke Power bought out old company are about 2/3 cheaper than other houses. We are paying for the difference. I think people that sell their old house to other people; the electric rate should return the normal rate. This does not happen! The rate stays the same.

Sincerely,
